Y452600

6 Ton Pin Trestle (per pair)

Model: Y452600

Product: 6T pin type trestle (pair)

Description: The Winntec Jack Stands are packed in pairs and intended to be used that way. A large PU support pad and pin-type adjustment allows more comfortable support and flexibility.

All stands are packed in pairs and intended to be used as such.

Features:	Benefits:
Locking pin	Adjustment pin is secured to stand to prevent loss.
Chain attached to pin	Pin wont be lost
Foot pads on the base	For extra grip and to prevent scratches to the floor
Large support pad	Rubber pad for protection
Supplied as a pair	Unless stated otherwise, jack stands are sold in pairs and given a weight rating based on what the pair of them can support together. Having 2 jack stands increases your safety should something happen.
Light weight	Easy to carry and move around
Pin type	Support 5 heights
Premium European design	Recognizing the demand for high performance work shop products, Winntec sourced the best quality components and developed a range of premium work shop equipment which offers excellent value for money. Choosing Winntec means choosing certainty in terms of quality, functionality and after sales service. It's the experience which makes the difference !
Training available	Technicians can be professionally trained to use the equipment and get the maximum benefit from it.
High Load Capacity	The primary feature of a 6T pin-type trestle is its substantial load capacity, capable of supporting up to 6 tons of weight, which makes it suitable for exceptionally heavy equipment and loads.
Adjustable Height	Like smaller trestles, a 6T pin-type trestle is typically adjustable in height, allowing you to customize the support to different tasks and equipment.
Pin-Type Support	It employs a pin-type design, which provides reliable and secure support for heavy loads. The pins can be locked in place to prevent unintended adjustments during use.

Durable Construction	These trestles are built to withstand the most demanding industrial conditions, typically constructed from sturdy materials such as steel or heavy-duty aluminum.
Compact and Portable	Despite their robust construction, many 6T pin-type trestles are designed to be portable, allowing for ease of transport and storage
Safety Features	Safety features like locking mechanisms, non-slip surfaces, and additional stability measures are often incorporated to enhance user safety during operation.
Versatile Usage	A 6T pin-type trestle can support a wide range of tasks and equipment, from heavy machinery to large construction projects, shipbuilding, and more.
	Exceptional Load Support: The primary benefit is the ability to safely support extremely heavy loads, making it indispensable in industries where heavy equipment and materials are handled regularly.
	Height Adjustability: Adjustable height allows for flexibility in accommodating various work heights and load sizes, making it adaptable to different job requirement
	Durability: The rugged construction ensures the trestle can withstand harsh industrial environments and maintain long-term durability, reducing the need for frequent replacements.
	Enhanced Safety: Safety is paramount in heavy-duty applications, and the stability and safety features of a 6T pin-type trestle reduce the risk of accidents and injuries in the workplace.
	Portability: Despite its size and load capacity, the trestle can still be transported and set up relatively easily, improving job site efficiency.
	Versatility: A 6T pin-type trestle can be used in various industries and applications, offering versatility and adaptability for different tasks.
	Cost Efficiency: While the initial investment may be higher than smaller trestles, the 6T pin-type trestle can lead to significant cost savings by improving efficiency, reducing downtime, and enhancing safety.
1 year warranty	The machine will be repaired if there are any factory faults and can be replaced if required.

Spares available

Should you have a breakdown you will not have to wait for your equipment to be repaired. If there is anything we don't have, we fly it in directly from the Suppliers.

Technical information

Type	Pin type
Lifting capacity	6 ton
Min lifting height	404 mm
Max lifting height	604 mm
Net weight	11 kg
Packaged dimensions	540*330*330 mm
Additional	Supplied in pairs, large support saddle, rubber protection
Base size	341 mm

Minimum height	Maximum height	Base diameter
404 mm	406 mm	341 mm
