10 Keymax Park, 1006 Ergon road, Lyttelton Manor, Gauteng

Model: E1531C

Product: 3 Ton short body turbo lift

Description: Robust design, making it a popular choice for automotive maintenance. Used for lifting vehicles to facilitate maintenance or repair work

Features:	Benefits:
Capacity	3 tons, making it suitable for most cars and light pick-up trucks.
Construction	Heavy-Duty Steel Frame: Ensures durability and long-lasting performance. Welded Frame: Enhances structural integrity and strength.
Hydraulic system	Dual Pump Pistons: Allow for quicker lifting with fewer pumps. Overload Protection: Built-in safety valve to prevent overloading and ensure safe operation
Saddle Design	Swiveling Saddle: Provides better positioning and stability under the vehicle's lift points. Rubber Pad: Protects the vehicle's frame from damage during lifting.
Wheels and Handle	Swivel Rear Casters: Enhance maneuverability, making it easier to position the jack precisely. Long Handle: Provides leverage, making it easier to lift heavy vehicles.
Overload Protection	Overload Protection: Prevents the jack from being used beyond its capacity, ensuring safe operation. Stable Lifting: The robust construction and wide base provide stability during lifting, reducing the risk of the vehicle slipping or tilting.
Efficiency	Quick Lifting: Dual pump pistons reduce the number of pumps required to lift the vehicle, saving time and effort. Easy Maneuverability: Swivel rear casters and a long handle make positioning the jack under the vehicle quick and effortless.
Durability	Heavy-Duty Construction: Steel frame and welded components ensure the jack can withstand frequent use and heavy loads. Low Maintenance: Durable materials and design reduce the need for frequent maintenance and repairs.

Versatility	Wide Lifting Range: Suitable for a variety of vehicles, from low-clearance sports cars to higher-clearance trucks and SUVs. Protective Saddle: Rubber pad and swiveling design accommodate different lift points and protect the vehicle's frame.
User-Friendly	Simple Operation: Hydraulic system and ergonomic design make it easy to use, even for those with minimal experience. Compact Storage: Designed to be compact enough for easy storage when not in use.
Training available	Technicians can be professionally trained to use the equipment and get the maximum benefit from it.
1 year warranty	The machine will be repaired if there are any factory faults and can be replaced if required.
Spares available	Should you have a breakdown you will not have to wait for your equipment to be repaired. If there is anything we don't have, we fly it in directly from the Suppliers.

Technical information	
Min height	120 mm
Max height	453mm
Strokes	6.5
Net weight	28kg
Gross weight	30 kg
Product size	685*338*155 mm
Packaging dimensions	710*385*200mm
