T117B

1/2" Impact wrench
(max torque 520 N.m)

Model: T117b

Product: ½" mini impact wrench - jumbo hammer

Description: A 1/2-inch impact wrench is a valuable tool for professionals and DIY enthusiasts alike due to its balance of power, versatility, and ease of use. It is commonly used in automotive repair, construction, and general maintenance tasks.

Features:	Benefits:
Hammer mechanism	Utilizes a jumbo hammer impact mechanism for powerful and efficient torque delivery.
½" drive	Suitable for handling a wide range of fasteners, making it a versatile tool for various applications.
High torque output	Capable of delivering substantial torque for effective fastening or loosening of nuts and bolts.
Durable construction	Built with robust materials to withstand the demands of regular use in automotive and industrial environments
Variable speed and power setting	Adjustable settings provide versatility for different tasks and materials.
Forward and reverse operation	Allows for both tightening and loosening of fasteners, increasing the tool's versatility.
Pneumatic	Powered by compressed air (pneumatic), providing flexibility based on the work environment.
Compact and Ergonomic Design	Designed for ease of use, maneuverability, and reduced operator fatigue during prolonged use.
Rocking Dog or Pin Clutch Mechanism	Common impact mechanisms providing reliable and efficient torque delivery.
Handle with Grip	Comfortable grip on the handle for improved control and reduced hand fatigue.
Built-in Torque Control	Allows for precise torque adjustment, preventing over-tightening of fasteners.
Durable Anvil	Sturdy anvil to withstand the impact forces during use
Lightweight Design	Facilitates easy handling and maneuverability. Easily transported and used in various locations within a workspace
Mini Design	Compact and lightweight design for easy handling and maneuverability in tight spaces
Training available	Technicians can be professionally trained to use the equipment and get the maximum benefit from it.
1 Year warranty	The equipment will be repaired if there are any factory faults and can be replaced if required.

Spares available

Should you have a breakdown you will not have to wait for your equipment to be repaired. If there is anything we don't have, we fly it in directly from the Suppliers.

Technical information	
Square drive	½"
Max torque	350 ft.lb
Working pressure	90 psi / 6.3 bar
Exhaust	Handle
Overall length	120mm
Air inlet	¼ "
Packaging dimensions	190*19*70 mm
Packaging weight	1.8 kg

**Durable iron
hammer case**

**Forward / reverse
switch**

**Speed control
knob**

Handle exhaust

**Air inlet with
screen filter**
