Model: Y444100

Product: 10t collision repair kit

Description: The Y444100 from Winntec is a 10-ton collision repair kit, commonly referred to as a “Porta Power.” This versatile toolset is designed for various applications in garages and workshops, enabling users to perform clamping, pulling, bending, straightening, spreading, and lifting tasks efficiently.

Features:	Benefits:
Heavy-duty Construction	The kit includes robust extension tubes designed to handle demanding situations.
Automatic Pump Overload System	This feature protects the rams and equipment from damage due to overload.
Snap-On Design:	Allows for quick assembly and disassembly, making it user-friendly
Convenient Carry Case	All components are neatly organized in a carry case for easy storage and transport.
	Ideal for restoring bodywork structures to their original shape.
	Designed for low pumping effort due to the long handle, enhancing usability
	The kit includes essential components such as a ram, flat base, and various extension tubes, making it comprehensive for repair needs
Training available	Technicians can be professionally trained to use the machine and get the maximum benefit from it.
1 year warranty	The machine will be repaired if there are any factory faults and can be replaced if required.
Spares available	Should you have a breakdown you will not have to wait for your equipment to be repaired. If there is anything we don't have, we fly it in directly from the Suppliers.
