Y452300

3 Ton Pin Trestle (per pair)

Model: Y452300

Product: 3T pin type trestle (pair)

Description: The Winntec Jack Stands are packed in pairs and intended to be used that way. A large PU support pad and pin-type adjustment allows more comfortable support and flexibility.

All stands are packed in pairs and intended to be used as such.

Features:	Benefits:
Locking pin	Adjustment pin is secured to stand to prevent loss.
Chain attached to pin	Pin wont be lost
Foot pads on the base	For extra grip and to prevent scratches to the floor
Large support pad	Rubber pad for protection
Supplied as a pair	Unless stated otherwise, jack stands are sold in pairs and given a weight rating based on what the pair of them can support together. Having 2 jack stands increases your safety should something happen.
Light weight	Easy to carry and move around
Pin type	Support 5 heights
Premium European design	Recognizing the demand for high performance work shop products, Winntec sourced the best quality components and developed a range of premium work shop equipment which offers excellent value for money. Choosing Winntec means choosing certainty in terms of quality, functionality and after sales service. It's the experience which makes the difference !
High Load Capacity	A 3T pin-type trestle is designed to handle heavy loads of up to 3 tons, making it suitable for a wide range of industrial and construction applications.
Adjustable Height	Most pin-type trestles are adjustable in height, allowing you to set the desired working height to support various tasks and equipment.
Pin-Type Support	The pin-type design provides a secure and stable support structure. The pins can be locked in place to prevent accidental adjustments during use.
Durable Construction	These trestles are typically constructed from sturdy materials like steel or aluminum, ensuring long-term durability even in harsh working environments.
Compact and Portable	Many 3T pin-type trestles are designed to be easily transportable and can be folded or disassembled for convenient storage and transportation.

Warranty terms

Safety Features	Some models include safety features such as locking mechanisms and non-slip surfaces to enhance user safety during operation.
Versatile Usage	These trestles can be used for a variety of tasks, including supporting heavy machinery, scaffolding, construction work, vehicle maintenance, and more.
	Load support: The primary benefit of a 3T pin-type trestle is its ability to support heavy loads safely. This is crucial in industries where the stability of equipment and loads is essential for safety and productivity.
	Adjustability: The adjustable height feature allows for flexibility in accommodating different work heights and varying load sizes. This adaptability can save time and effort in setting up equipment.
	Durability: The robust construction ensures that the trestle can withstand the rigors of daily use in demanding industrial settings, providing a long service life.
	Safety: Pin-type trestles are designed with safety in mind, and the locking mechanisms and stable support they offer reduce the risk of accidents and injuries when working with heavy loads.
	Portability: Being compact and portable makes it easy to move and set up the trestle wherever it is needed, improving efficiency on job sites.
	Versatility: A 3T pin-type trestle can serve multiple purposes, making it a versatile tool in industries ranging from construction to automotive maintenance.
	Cost-Efficiency: Investing in a reliable 3T pin-type trestle can ultimately lead to cost savings by improving efficiency, reducing downtime, and minimizing the risk of accidents or equipment damage.
Training available	Technicians can be professionally trained to use the equipment and get the maximum benefit from it.
1 year warranty	The machine will be repaired if there are any factory faults and can be replaced if required.
Spares available	Should you have a breakdown you will not have to wait for your equipment to be repaired. If there is anything we don't have, we fly it in directly from the Suppliers.

Technical information	
Type	Pin type
Lifting capacity	3 ton
Min lifting height	322 mm
Max lifting height	465 mm
Net weight	5.2 kg
Packaged dimensions	430*230*260 mm
Additional	Supplied in pairs
Base size	254 mm

Minimum height	Maximum height	Base diameter
322 mm	465 mm	254 mm
