

ZD04103A

Motorcycle scissor stand (450 KG)

Model: ZD04103A

Product: 450 kg motorcycle scissor stand

Description: Scissor stands are suitable for either on a motorcycle lift or on the floor. Fitted with ball bearing rollers for smooth lifting and lowering. Raise by hand or with a sliding T-bar. Comes with non-slip rubber for added security.

Features:	Benefits:
Scissor support	Use with lift or on the floor
Ball bearing rollers	Smooth lifting and lowering
Raise by hand	No air or electricity needed
Non slip platform	Added security.
	Motorcycle Maintenance: The primary purpose of a motorcycle scissor stand is to lift motorcycles off the ground, providing easy access to various parts of the bike for maintenance and repair tasks. This includes changing oil, servicing brakes, inspecting the exhaust system, and more.
	High Weight Capacity: With a 450kg weight capacity, this type of lift can accommodate a wide range of motorcycle sizes and styles, including heavier cruiser bikes and touring motorcycles.
	Safety: Motorcycle scissor stands are designed with safety in mind. They come with safety locks or locking mechanisms to ensure the motorcycle remains securely in place while elevated, reducing the risk of accidents or injuries during maintenance and repair work.
	Stability: Scissor lifts provide a stable and level platform for the motorcycle, which is crucial for safe and efficient maintenance. This stability allows users to work with confidence and precision
	Accessibility: Lifting the motorcycle to a comfortable working height makes it easier to access and work on various components, including the engine, suspension, wheels, and more. This can lead to more thorough inspections and better maintenance.
	Time Savings: Using a scissor stand can significantly speed up maintenance and repair tasks, as it eliminates the need for kneeling or bending over to work on the bike. This can save time and reduce physical strain for mechanics and DIYers.

	Convenience: Having a dedicated work platform for motorcycle maintenance provides a clean and organized workspace. It also eliminates the need to lay on the ground or use improvised methods to lift the bike.
	Versatility: Some motorcycle scissor stands are adjustable, allowing users to raise or lower the motorcycle to their preferred working height. This customization can accommodate different tasks and user preferences.
	Compact Storage: Many scissor stands are designed to be compact and foldable, making them suitable for smaller garages or workshops with limited space. They can be stored out of the way when not in use.
	Professional Results: A scissor stand provides a stable and level platform for working on a motorcycle, which can lead to more professional and precise maintenance and repair work.
	DIY Enthusiast Convenience: Motorcycle enthusiasts who enjoy working on their bikes will find a scissor stand to be an invaluable tool. It allows them to tackle a wide range of projects and modifications with ease.
	Increased Productivity: For motorcycle repair shops and businesses, the use of a scissor stand can increase the number of motorcycles that can be serviced in a day, ultimately leading to increased revenue and customer satisfaction.
	Resale Value: If you plan to sell your motorcycle in the future, having a well-maintained bike with a history of proper maintenance can increase its resale value.
Training available	Technicians can be professionally trained to use the machine and get the maximum benefit from it.
1 year warranty	The machine will be repaired if there are any factory faults and can be replaced if required.
Spares available	Should you have a breakdown you will not have to wait for your equipment to be repaired. If there is anything we don't have, we fly it in directly from the Suppliers.
