Manual Motorcycle Tyre Changer

Model: SD18

Product: Manual Motorcycle tyre changer

Description: The SD-18 is a durable, manual motorcycle tyre changer designed for workshops, small garages, and riders who prefer doing their own tyre changes. With no air or electricity required, it's portable, reliable, and easy to use.

Features:	Benefits:
Operation	Fully manual – no air or power supply required
Bead breaking	Integrated manual bead breaker lever
Construction	Heavy-duty steel frame for stability and long service life
Portability	Compact and lightweight, easy to move and store. Ideal for roadside assistance, track days, or personal garage use
Applications	Motorcycles, scooters, dirt bikes
Cost-effective	Eliminate workshop tyre fitting fees
Versatile	Handles a wide range of motorcycle wheel sizes
User-friendly	Simple lever-based design for straightforward tyre removal and fitting
Durable	Built to withstand repeated use without bending or warping
Training available	Technicians can be professionally trained to use the machine and get the maximum benefit from it.
1 year warranty	The machine will be repaired if there are any factory faults and can be replaced if required.
Spares available	Should you have a breakdown you will not have to wait for your machine to be repaired. If there is anything we don't have, we fly it in directly from the Suppliers.

Technical information	
Tyre range	8" - 22"
Machine weight	35kg
Power	Fully manual - no air or electricity needed
